#1. During an investigation of a freshwater lake, an AP

Biology student discovers a previously unknown microscopic organism. Further study shows that the unicellular organism is eukaryotic.

Advanced Placement - Wikipedia

Advanced Placement (AP) is a program in the United States created by the College Board which offers college-level curricula and examinations to high school students.

American colleges and universities may grant placement and course credit to students who obtain high scores on the examinations. The AP curriculum for each of the various subjects is created for the College Board by a panel of ...

Molecular Docking: A powerful approach for structure-based ...

1/6/2011 · Molecular docking has become an increasingly important tool for drug discovery. In this review, we present a brief introduction of the available molecular docking methods, and their development and applications in drug discovery. The relevant basic theories, including sampling algorithms and scoring functions, are

summarized.

JAK2 V617F: A Single Mutation in the Myeloproliferative ...

The JH2 domain is a non catalytic pseudokinase and has several crucial regulatory functions. 13 It appears that in the absence of ligand binding it has autoinhibitory properties, most likely manifest by a JH2/JH1 interaction,

and if an alteration in this area occurred dysregulation of this autoinhibition would result. It also appears that maximal JAK2 activity in response to cytokines requires ...

2020 International Society of Hypertension Global ...

6/5/2020 · Motivation. Raised BP remains the leading cause of death globally, accounting for 10.4 million deaths per year. 3 When reviewing global figures, an estimated 1.39 billion people had hypertension in 2010. 4 However, BP trends show a clear shift of the highest BPs from high-income to low-income regions, 5 with an estimated 349 million with hypertension in HIC and 1.04

billion in LMICs. 4
