Dr. Eggman's original design in 1991. In April 1990, Sega

petitioned its research and development department, AM8, to create a character who would replace Alex Kidd as the company's mascot, as well as compete against

Nintendo's flagship character, Mario. A mustached man in pajamas was among the proposed designs. Combined with the idea of an egg-shaped character, it eventually

became the basis ...

In the first couple of
episodes I kept

thinking how this series was House but with a nicer protagonist. You've still get a brilliant doctor who sees things others don't, pushes against authority, and

has poor social skills,
only this time instead
of a surly, middle-
aged alcoholic the
doctor is a sweet
autistic kid (seriously,
he looks about 14).
