Occupational safety and health  
(OSH), also commonly referred to as

occupational health and safety (OHS), occupational health, or occupational safety, is a

multidisciplinary field concerned  
with the safety, health, and welfare  
of people at occupation. These terms

also refer to the goals of this field, so their use in the sense of this article was originally an abbreviation of

occupational safety ...

This course offers students an introduction to the Occupational

Health & Safety (OH&S) Act of  
Nova Scotia, which is required by  
any person employed in a Nova

Scotia workplace. This is a generic, introductory course that provides basic knowledge of the Act for

students and is considered to be the  
basis from which more specific

training can be given.
